

## Final What Matters Essay

Now that you have spent weeks researching your topic, it is time to complete your final essay.

Create your essay in Google Docs so we can peer edit. This essay will be about one page in length and will incorporate at least three citations from your research. You will need to formally site your paper using MLA format and include Works Cited. You will succinctly write an overview of your topic. This paper represents you and everything you have researched this semester so make it great!

We will spend one day in class peer editing your paper. You will peer edit three of your classmates' papers.

After peer editing, make corrections and post your final paper on the ESSAYS page of your website. Copy and paste this final revised essay at the top of the page and title it **Final Essay**. You have the choice to include your original essay at the bottom of the page and it should be titled **Essay One**. Be sure to put a DIVIDER between your essays as well as a **TITLE**.
